

Customised cover for Surf Life Saving Australia clubs

As the preferred insurance broker for Surf Life Saving Australia for more than 20 years, we can help arrange customised insurance policies that reflect the unique exposures of your club and tap into the size and scale of our global business and longstanding relationships with insurers to help secure the right policy for your needs, at competitive prices. We've got you covered, so your club can keep doing what they do best – keeping our beaches safe.

What you get

In addition to public liability, association liability insurance, and personal injury insurance, which clubs receive as part of the SLS group cover program, we can also arrange specialised cover option unique to your industry, including:

Marine hull insurance

Marine hull insurance offers cover for loss and damage to the club's marine assets. It includes owned marine assets, inflatable rescue boats additional outboard motors, jet skis and surf boats. Additionally, protection extends to where boats are used for operation or sports.

Motor vehicle insurance

Motor vehicle insurance can help cover the club's motor vehicles against loss and damage to insured and third-party vehicles. It covers club vehicles, including sedans, buses, SSV (ATVs), and gear and equipment trailers.

As a bonus, when your club purchases cover through Marsh, your package automatically extends to include private vehicles used to transport club trailers (up to \$25,000).

Industrial special risk insurance

Industrial special risk covers the club's physical assets, including clubhouses, contents, stock and lifesaving equipment. It not only helps protect against loss or damage to these assets, but also provides coverage for any resulting business interruption and loss of operating profits. The policy can also cover additional costs incurred to help ensure your club continues operating smoothly.

I reached out to Marsh to provide a quote as our Property Insurance at Woolgoolga was getting too expensive. I spoke with Josh and within days Marsh were able to provide a formal quote that saved us 40% on our total Property Premium. I recommend reaching out to Marsh.
